March 19, 2020

Coronavirus COVID 19 Customer Information

The wellbeing of our clients and our employees has always been our main concern. Cleaning for health has been our Mission and Vision for many years, not just in a time of crises. Rest assured we are here to help you and are the best choice for your facility's health and cleaning needs.

The CDC, WHO, EPA are updating information as it become available. These are trusted sources not like Facebook, the internet, and other unconfirmed sources.

Coronavirus- COVID 19 infections can be transmitted by airborne or surface contact:

- Through the air by coughing and sneezing
- Close personal contact, such as touching or shaking hands
- Touching contaminated surfaces then touching your face, nose or mouth
- Being too close to someone with the virus and breathing their contaminated air

We have made certain changes to ensure that everyone stays safe:

- Our employees have been instructed to stay home if they have any flu or cold symptoms
- We are asking all our clients to inform us if they have any symptoms so we can postpone regular cleaning job until it is determined safe
- We are sanitizing all our equipment after leaving every job site
- We will not be shaking hands and we will try to keep 6 feet distance between us and our clients

At All Brite Cleaning & Restoration, Inc. is constantly improving our equipment, technology, and protocols to provide clients with the best experience and healthy homes and facilities. All Brite Cleaning & Restoration, Inc. has been diligent in training and learning as much as we can regarding COVID 19. It is the contamination that you can't see that is the most harmful and proper cleaning is the most effective way to remove unseen contamination. We now offer sanitation services to our clients with approved cleaning chemicals that are safe and provide the healthiest indoor environment possible.
